BOSTON, MASS. BANKERS AND BROKERS.

Boston, Mass., Oct. 25.-The local market showed a continuation

today of liquidation and the catching of stop orders. The small vol-

ume of buying was largely responsible for the rapid decline, as the

amount of stock offered is comparatively small. Nervousness regard-

ing election results is the cause of the lack of confidence. For the

past few weeks the election of Wilson has been conceded, but every-

one has said it would make little difference with the prosperity of the

country. A wave of uncertainly is sweeping through the financial community at present and prospective buyers are being frightered
